TECHNICAL SKILLS

Web Technologies : React , Node.js , Mongoose , Express , JavaScript,HTML,SCSS

Database : MongoDB, SQl ,

Programming : Core Java, Java ,C Programing

Java Technologies : Exception Handling , Multi Threading , JDBC

React Technologies: Components , Props, Handlings Events,Hooks,Router,Redux

EDUCATION

Qualification	Name of Institute	Year of Passing	Percentage/CGPA
B.C.A (Bachelors in Computer Application)	Yashwantrao Chavan Maharashtra Open University	2021 September	7.78 CGPA
HSC(12th Science)	Maharashtra State Board	2018	62.15%
SSC(10th)	Maharashtra State Board	2016	64%

PROJECTS

Daily Notes

Daily Notes is a Web Application where users can make notes.Users have to create an account while filling in some details and setting a password .The account and notes of the user is safe and only user can access them . Users can add,edit and delete the notes. All the notes of users are saved in the database and they can access previous notes also.
MERN technology is used to develop this project :
For Client Side:React.js,Node.js,
For Server Side:MongoDB,Express,Node
https://dailynotes8md.herokuapp.com/

NewsOnTips
It is a news application in which you can fetch the daily news in various categories. The categories present are business,sports,entertainment, technology,health,science etc. The news updates daily with the name of the Publisher, author, date and time.
Language:**React,Node.js,Express,Html,Css,JavaScript**

Play with Text
In this application you can convert the texts according to the given condition and know the number of words and characters present in the text. You can change the mode of a page.
Language used:**React,Nodejs,Html,Css,JavaScript,Git.**
https://logan8md.github.io/Project-Play-with-text/

Landing-page
In this project, I've created a responsive web page having various cards with filter buttons and various animations such as an image comparison slider and image magnifier, etc. This project contains project
cards that redirect the user to my other project
https://10xtechtraining.gitlab.io/mean-deepak-m/
Git repo:
https://gitlab.com/10xtechtraining/mean-deepak-m/-/tree/devloper

Form builder
It is a web-based project, the project helps the user to create a page dynamically which contains
logos and forms as per their input.
The technologies used are HTML and SCSS for UI and ES6 features such as JavaScript objects and classes to
save user inputs in local Storage
Git repo:
https://gitlab.com/10xtechtraining/mean-deepak-m/-/tree/x-form-builder/x-form-builder

Forms

Forms is the project in which I've created web pages such as sign-up ,login page, and forgot password with JavaScript Validations and data API's and also added a carousel.
Git repo
https://gitlab.com/10xtechtraining/mean-deepak-m/-/tree/devloper/x-form

Project Education System   January 2021 -April 2021

Manage System of Institute/University for creating and managing accurate, up-to-date information, queries and reports Regarding students.
Language used:**Java,JavaScript,Html,SQL,JDBC**

Project To Do List   May 2020-June2020

This project helps us to make a list of work to do in a day.We can add and remove the work from the list
languages used :**Html,Css,Javascript, Node.js,Bootstrap**.
